Publisher: Candice Janco

Acquisitions Editor: Louisa Munro

Editorial Project Manager: Chris Hockaday

Production Project Manager: Kumar Anbazhagan

Cover Designer: Matthew Limbert

Typeset by TNQ Technologies

Cover Credit: The book cover design is by Franco Auad who used an underwater photograph taken on July 4, 2019 by Vincent Legrand off Terceira Island, Azores, Portugal. It shows short-beaked common dolphin (*Delphinus delphis*) feeding on bait ball. One of the dolphins is bubbling to stress the school of fish. The image of the Argo Deep float was kindly provided by the Instrument Development Group at Scripps Institution of Oceanography. The image emphasizes the importance of collaborations as dolphins work together to feed on the fish, while the fish are schooling and working together to increase their chances of survival. Meanwhile, scientists on the airplane and a research vessel work together to gather observations and learn about the ocean.

Contents

<i>Contributors</i>	<i>xi</i>
<i>About the editors</i>	<i>xv</i>
<i>Acknowledgments</i>	<i>xvii</i>
<i>Introduction</i>	<i>xix</i>

1. The Bering Sea Project 1

Francis K. Wiese

Introduction	1
Background	1
Building the partnership	2
Program implementation	4
Program management	7
Program findings	9
Sustainability	10
Lessons learned	11
Conclusions	13
Acknowledgment	15
References	15

2. Belmont Forum partnerships 17

Erica L. Key

Introduction	17
Partnership processes	18
Implementing the partnerships	22
Outcomes and lessons learned	27
Acknowledgment	31

3. The Nansen Legacy: pioneering research beyond the present ice edge of the Arctic Ocean 33

Paul Wassmann

Introduction	33
Background	34
Norway's Arctic future?	35
First steps toward the Nansen Legacy project and goals	37

Challenges and activities	38
Presenting the plan to industry and international partners	41
Quality control of the research plan	41
Funding the Nansen Legacy project	42
Recruitment for a sustainable Arctic future	43
The significance of cooperation, division of labor, and focus for solving grand national and international research questions	43
Lessons learned?	46
How will the future Arctic look like and how should we adapt to research efforts?	47
Acknowledgments	49
References	49

4. The Argo Program 53

Dean Roemmich, W. Stanley Wilson, W. John Gould, W. Brechner Owens, Pierre-Yves Le Traon, Howard J. Freeland, Brian A. King, Susan Wijffels, Philip J.H. Sutton and Nathalie Zilberman	
Introduction	53
Argo's roots in WOCE	55
The formation of Argo's multi-national partnership	57
Implementation of the global Argo array	59
International governance: Argo and JCOMM	61
The Argo data management system	63
The sustainability of Argo	64
Conclusion	66
Acknowledgments	68
References	68

5. The Marine Arctic Ecosystem Study partnership: planning, implementation and lessons learned 71

Guillermo Auad and Francis K. Wiese	
Introduction	71
Project planning	71
Project implementation	73
Lessons learned	77
Conclusions	83
Acknowledgments	85
References	85

6. Partnering with the public: The Coastal Observation and Seabird Survey Team	87
Julia K. Parrish, Hillary Burgess, Jaqueline Lindsey, Lauren Divine, Robert Kaler, Scott Pearson and Jane Dolliver	
Introduction	87
Marine citizen science	88
COASST as a case study	90
Motivation to start the program	90
Organizational evolution	92
Lessons learned	101
Conclusion - partnerships in citizen science	104
Acknowledgments	104
References	104
7. Long-term sustainability of ecological monitoring: perspectives from the Multi-Agency Rocky Intertidal Network	109
Lisa Gilbane, Richard F. Ambrose, Jennifer L. Burnaford, Mary Elaine Helix, C. Melissa Miner, Steven Murray, Kathleen M. Sullivan and Stephen G. Whitaker	
Introduction	109
Foundations of MARINe	112
Sustainable practices	117
Strengths of the partnership	125
Acknowledgments	126
References	127
8. Deep-water study partnerships: characterizing and understanding the ecological role of deep corals and chemosynthetic communities in the Gulf of Mexico and northwest Atlantic	131
Gregory S. Bolland	
Introduction	131
Partnering agency introductions	135
Chemo III	137
Lophelia II	142
Atlantic Canyons	147
Summary comments	151
Acknowledgments	152
References	153

9. Adaptation to repetitive flooding: expanding inventories of possibility through the co-production of knowledge	155
Elizabeth K. Marino, Annie Weyiouanna and Julie Raymond-Yakoubian	
Introduction/background	155
Project setup and goals	158
Project implementation	160
Ongoing lessons	163
Conclusion: a more collaborative science	164
Acknowledgments	164
References	164
10. Lessons learned from nine partnerships in marine research	167
Francis K. Wiese, Guillermo Auad, Elizabeth K. Marino and Melbourne G. Briscoe	
Introduction	167
Analysis	168
Resilience and sustainability of partnerships	176
Conclusions	179
Acknowledgments	180
References	180
11. Research partnerships and policies: a dynamic and evolving nexus	183
James J. Kendall, Jr., Elizabeth K. Marino, Melbourne G. Briscoe, Rodney E. Cluck, Craig N. McLean and Francis K. Wiese	
Introduction	183
Research policies and partnerships	184
Case studies	187
Policy sources and impacts	189
The future of research policies	191
Recommendations for research policies	195
Acknowledgments	196
References	196
12. Global marine biodiversity partnership	199
Francis K. Wiese and Guillermo Auad	
Preface	199
Introduction	199
Fertile Ground	200

The Partnership	203
Operational Phase	209
Epilogue	211
Acknowledgments	213
References	213
<i>Index</i>	217
