# About the Author

**Gary P. Gauvin** has worked in the software development industry for over 20 years, spanning many industries and disciplines. Gary is a Microsoft MVP in the ALM specialty, working closely with Microsoft on the Team Foundation Server 2012 release. He has consulted and worked for the nation's top technology companies. Gary lives and works in Northern NH. You can follow his blog at <http://www.theCTO.org>. Feel free to connect with him on LinkedIn at [www.linkedin.com/in/garypgauvin](http://www.linkedin.com/in/garypgauvin).

Gary is currently the Application Lifecycle Manager at CD-adapco, the leading provider of the CFD (Computational Fluid Dynamics) software. Gary has held senior positions in many of the nation's top companies as well as in the consultation firm he founded.

---

I would like to thank my family for putting up with the long hours and short deadlines this project required. I'd also like to thank my co-workers from my former and current employers for putting up with my ranting and raving about this project for months. A big thanks also goes out to the entire MVP community for entertaining my long questions on the mailing lists sometimes, and of course the Visual Studio and Project Server teams that assisted me when needed. Last, but definitely not the least, I'd like to thank the Packt Publishing team (especially Meeta and Esha) for their help with the editing and formatting of this book, without them this project would not even have started.

---

# About the Reviewer

**Mathias Olausson** works as the ALM Practice Lead for the Transcendent Group, specializing in software craftsmanship and application lifecycle management. With over 15 years of experience as a software consultant and trainer, he has worked in numerous projects and organizations, which have been very valuable when using Visual Studio as a tool for improving the way we build the software. Olausson has been a Microsoft Visual Studio ALM MVP for four years. He is also active as a Visual Studio ALM Ranger, most recently in the role of Project Lead for the Visual Studio Lab Management Guide project. Olausson is a frequent speaker on Visual Studio and Team Foundation Server at conferences and industry events and blogs at <http://msmvps.com/blogs/molausson>.

He has also worked on *Pro Application Lifecycle Management with Visual Studio 2012* (Apress, 1430243449).
