

The background of the book cover is a sepia-toned collage. It features a large silhouette of a person in the foreground on the left, holding a long-handled tool. In the background, there is a scene of people working in a field, and a large white truck is visible in the lower left. The overall theme is related to food and farming.

Acknowledgements

I would like to acknowledge the help and encouragement of a number of people in the writing this book. Firstly the contributors, who kindly wrote the case-study chapters based on their greater experience of these areas than mine. I would also like to thank the many farmers I have interviewed who wished to remain anonymous and the many professionals who have taken part in the projects that I have conducted since 2001. In particular, I would like to thank Jamie Gwatkin of the Joint Venture Farming Group and Louise Letnes, Kent Olsen and Dale Nordquist of the University of Minnesota for their time and input. Acknowledgements are also due to the Food Chain Centre at the IGD for use of their outputs and for many discussions. The publishers and the editor of the series, Andrew Fearn, have also been instrumental in getting the book off the ground. Finally, my family are due much gratitude for their patience and encouragement during the writing of this book.

List of Contributors

Lisa Jack is Senior Lecturer in Accounting in the Essex Business School at the University of Essex, England. She is a qualified accountant who moved into academic life following 10 years as an auditor. Her key areas of research are accounting in the agri-food industry and performance measurement, which she began looking at whilst working at Writtle College, a partner institution of the University of Essex.

Julie Boone is a principal lecturer at Harper Adams University College in Shropshire, England. Her areas of special interest include marketing and supply chain management in the food industry. She has worked with the Food Chain Centre in the UK on its Balanced Scorecard Project and in facilitating learning groups.

Sue Kilpatrick is an associate professor and Director of the Department of Rural Health at the University of Tasmania. Her research interests are rural health systems, community participation in health, social capital, rural leadership and vocational education and training in regional Australia. She has published extensively in these areas, besides working as a consultant and researcher with rural communities at the local level.

Nicola Shadbolt is an associate professor in the agribusiness section of the Institute of Food Nutrition and Human Health at Massey University in New Zealand. She has researched and written extensively on the need for strategic management practices in agriculture and food, including benchmarking and balanced scorecards. She is the editor and an extensive contributor (with Sandra Martin) to *Farm Management in New Zealand* published by Oxford University Press in 2005.

Sarah Thelwall is a business development consultant to creative businesses and one of the founders of www.mycake.org. She has also worked as a consultant with David Thelwall of Prospect Management Services on the use and promotion of benchmarking in agriculture.

Peter Whitehead joined IGD in 2001 following 20 years' experience working at the Ministry of Agriculture, Fisheries and Food (now Defra). He has a wealth of experience on agriculture matters of policy, including the department's role in competition policy. At IGD, Peter managed the Food Chain Centre from its inception and has co-authored a number of publications, including *Lean Operations* and *Competing in the 21st Century*.
