## **Acknowledgement**

Foremost, I have to say that, apart from the efforts of my own, the encouragement, guidelines and support of some other people were essential for the successful achievement of my goal - writing the bachelor thesis on a really interesting to me topic, where I can analyse relative issues and find the answers to my questions. Due to this, I take this opportunity to express my gratitude to all these people.

I would like to thank everyone, who made it possible for me to become a double degree student. I am very grateful to Vilnius Gediminas technical university for the opportunity to study abroad and to Fachhochschule Stralsund for all the experience and knowledge I gained there.

A special gratitude I want to express to Prof. Dr. phil. Dr. hc. Hiltgunt Fanning and Skirmantas Šidlauskas for the understanding and the help throughout the process of writing my thesis and preparing for the defence.

I also want to thank my friends and the loved ones for the support and encouragement. Without that, it would have been much harder to achieve my goal. Especially I am grateful to Michael Korotkov for believing in me, supporting, understanding and being there for me.

Additional thanks to Stefanie Wenzel, Anne Quander, Dr. Thomas Hausmann, Dr. Doc. Algita Miečinskienė, Dr. Indrė Lapinskaitė and Gražina Jurgilienė for all the help and support during my bachelor studies.
