Fabian Guse

VU University Amsterdam

Business Administration – Strategy & Organization

# Acknowledgements

This thesis represents the end of my study at the VU University Amsterdam and simultaneously my graduation as a M.Sc. in Business Administration: Specialization in Strategy & Organization. It was a very exciting and valuable year for me on both, educational and personal levels. I'm grateful for all experiences I made and things I have learned during lectures, projects and in particular during the conducting of my master thesis.

In this regards, I would like to thank my research group for all the nice meetings, discussions and the teamwork during the last months. In particular, I would like to express my gratitude to my supervisors Dr. R.J.A. Klein Woolthuis and Dr. J.J. Berends for all their support during the conduction of this thesis. Their insights on the topic of sustainable innovation really inspired me and even changed my way of thinking about business and my professional career plans.
