* Originally submitted title: Socio-economic characterization and heavy metal signatures in urban and peri-urban agricultural production systems of Mumbai Metropolitan Region, India

Die vorliegende Arbeit wurde vom Fachbereich Ökologische Agrarwissenschaften der Universität Kassel als Dissertation zur Erlangung des akademischen Grades eines Doktors der Agrarwissenschaften (Dr. agr.) angenommen.

Erster Gutachter: Prof. Dr. Andreas Buerkert,
Universität Kassel

Zweiter Gutachter: Prof. Dr. Eva Schlecht,
Universität Kassel und Georg-August-Universität Göttingen

Prüfer: Prof. Dr. Christoph Scherrer,
Universität Kassel

Prüfer: Prof. Dr. Sharit Bhowmik,
Tata Institute of Social Sciences, Mumbai

Tag der mündlichen Prüfung: 13. Juni 2014

This work has been accepted the faculty of Organic Agricultural Sciences of the University of Kassel as a thesis for acquiring the academic degree of Doktor der Agrarwissenschaften (Dr. agr.).

First supervisor: Prof. Dr. Andreas Buerkert,
Universität Kassel

Second supervisor: Prof. Dr. Eva Schlecht,
Universität Kassel and Georg-August-Universität Göttingen

Examiner: Prof. Dr. Christoph Scherrer,
Universität Kassel

Examiner: Prof. Dr. Sharit Bhowmik,
Tata Institute of Social Sciences, Mumbai

Defense date: 13th June, 2014

Table of contents

Table of contents.....	vii
Acknowledgements	xi
List of abbreviations	xv
Summary	xix
Zusammenfassung.....	xxi
Chapter 1 General introduction	1
1.1 Urbanization and urban and peri-urban agriculture.....	2
1.2 Urbanization, urban and peri-urban agriculture: Indian scenarios	3
1.3 Urbanization in Mumbai Metropolitan Region	5
1.4 Urban and peri-urban agriculture in Mumbai Metropolitan Region.....	6
1.5 Urban and peri-urban soils	6
1.6 Research objectives and hypotheses	7
1.7 References	8
Chapter 2 Urban and peri-urban agricultural production in the Mumbai Metropolitan Region (MMR): recent trends and opportunities.....	17
Abstract	18
2.1 Introduction	19
2.2 Materials and Methods	20
2.2.1 Study area.....	20
2.2.2 Climatic conditions	20
2.2.3 Soil and land use.....	20
2.2.4 Survey design and data collection.....	22
2.2.5 Statistical analysis.....	24
2.3 Results.....	24
2.3.1 UPA production systems.....	24
2.3.2 Household classification, structure and level of education	24
2.3.3 Migration pattern and UPA production experience.....	32
2.3.4 Income sources.....	32

2.3.5 Land tenure	32
2.3.6 Livestock	33
2.3.7 Pesticide and fertilizer usage	33
2.3.8 Labor patterns and investments in UPA production	35
2.3.9 Marketing channels and problems in UPA production.....	37
2.3.10 Water usage	37
2.4 Discussion	37
2.5 Conclusions	40
2.6 References	40
Chapter 3 Heavy metal signatures in urban and peri-urban agricultural production: comparison between railway gardens and farms across the Mumbai Metropolitan Region, India	45
Abstract	46
3.1 Introduction	47
3.2 Materials and Methods	48
3.2.1 Study area.....	48
3.2.2 Site description, soil profile sampling and characterization	49
3.2.3 Data analyses	56
3.2.4 Statistical analysis.....	58
3.3 Results.....	58
3.3.1 General soil properties	58
3.3.2 Elemental and heavy metal signatures	58
3.4 Discussion	71
3.5 Conclusions	74
3.6 References	74
Chapter 4 General discussion and conclusions	83
4.1. General overview of the study approach	84
4.2. Characterization of the UPA systems in MMR.....	84
4.3. Heavy metal signatures in UPA soils of MMR	85
4.4. Health risks associated with heavy metals	86
4.5. Good practices in urban and peri-urban agriculture.....	87
4.6. General conclusions	88

4.7. References	89
Curriculum Vitae.....	95
Affidavit	98

Acknowledgements

Acknowledgements cannot be fully expressed in words and writings; but can be expressed better in soul as emotions and feelings.

First of all, I would like to thank Prof. Dr. Andreas Buerkert for providing me an opportunity to do research work under his guidance at the University of Kassel, Germany. I express my sincere affection towards him for all his encouragements, valuable comments, suggestions, contributions, personal attention and motivation during the research days.

My heartfelt thanks to Prof. Dr. Eva Schlecht for her kind advice, help and inspirations which enabled me to overcome many crucial situations. I use this opportunity to thank Prof. Dr. Sharit Bhowmik, Tata Institute of Social Sciences (TISS), Mumbai for all the necessary assistance for my research work and stay in Mumbai.

My deep appreciation goes to Prof. Dr. D. Chandrasekhram from the Department of Earth Sciences, Indian Institute of Technology Bombay (IITB), Mumbai for his academic aid, permission to use the laboratory facility and consideration towards me. I cannot ever forget his vital support in my research work in Mumbai. I would also like to thank Prof. Dr. Kanchan Pande (Head, Department of Earth Sciences, IITB), Mombasawla L.S and Dr. Vijayalakshmi, Sophisticated Analytical Instrument Facility (SAIF, IITB) and Prof. Dr. Narendra G. Shah, Centre for Technology Alternatives for Rural Areas (CTARA, IITB), Mumbai.

I express my sincere gratitude to Prof. Dr. P. S. Vivek (Department of Sociology, Mumbai University), Mumbai for providing good encouragement and care during my research work and stay in Mumbai.

I owe special thanks to Dr. Martina Predotova for guidance and inspirations, Dr. Katrin Stenchly and Dr. Alexandra zum Felde for the valuable comments and correction of the manuscripts. I also kindly remember the help of Dr. Katja Brinkmann, Dr. Christoph Steiner and Dr. Ellen Hoffmann. I would also like to mention Dr. Jens Gebauer for his moral support and encouragement.

I thank Trupti Gurav for giving me good suggestions, familiarizing me with the complicated instruments and showing personal care and attentions during my stay in IITB, Mumbai.

I am also thankful to Mrs. Sigrid Haber, Mrs. Eva Wiegand and Mrs. Claudia Thieme who helped me a lot in administrative issues and lab analysis, respectively.

I also remember Prof. Dr. Christoph Scherrer, Birgit Felmeden, Christian Möllmann and all my International Center for Development and Decent Work (ICDD) graduate school colleagues around the globe.

I would like to extend my thanks to my senior colleagues Dr. Martin Wiehle, Dr. Sven Gönster, Dr. Naifu Abdu, Dr. Luc Hippolyte Dossa, Dr. Rodrigue Vivien Cao Diogo, Dr. Konrad Siegfried, Dr. Muhammad Tariq, Dr. Zikrullah Safi, Dr. Sahar Babiker Ahmed Abdalla, Dr. Desire Lompo, Dr. Husam Al Asfoor, Dr. Khair Tuwair Said Busaidi, Dr. Asif Raza, Dr. Mohammed Al-Rawahi and Dr. Hamadoun Amadou. I also remember the guidance of my peers Thin Nwe Htwe, Saadia Hanif, Jessica Andriamparany, Mariko Ingold, Juliane Erbach, Greta Jordan, Melanie Willich, Francesca Beggi, Susan Hanisch, Fatima Ghayoor, Tahiry Ranavoson, Baigal Ulziisuren, Noromiarilanto Fanambinantsoa, Pascal Fust, Thobias Feldt, Amel Al Kindi, Alim Sabir and Tsevegmed Munkhnasan.

Special thanks to Dr. Shilpa V. Netravali, Javed M. Shaikh, Vinita Shetty, Yukta Y. Durve, Anil Dhamahe and P.S. Sawant. I would like to also mention the motivation and academic interactions from Hemanth Singh, Thambidurai P, Chandrasekhar Azad, Pooja V. Kshirsagar, Visnu V.G, Vinay Gupta, Arindram, Bidyut Mahata, Janisar Akhtar, Madhuri Patel, Amruta Bhave, Aparna Surve, and Anjali Vijayan during my stay in IITB, Mumbai.

I cannot forget the advice, care and affection from Shoaib Ur Rehman during my research work. I also thank Vilas Ghule and Nilesh Bhange for assisting me during my field work and sample collection.
