About the Authors

Kate Binder

has been using Apple computers for more than 25 years — yes, that predates the Mac! — and is starting to feel quite old. She still enjoys messing around with Macs, though, and does so at every opportunity. It's much more entertaining than doing actual work. When she can be found working, Kate's most likely to be doing magazine and book production, creating e-books for major publishers, or writing books like this one. Books that Kate has written or co-written include *Teach Yourself Adobe Photoshop Elements 6 in 24 Hours*, *Easy Mac OS X Leopard*, *Sams Teach Yourself Adobe Photoshop CS3 in 24 Hours*, *Easy Adobe Photoshop Elements 4*, *Get Creative!: The Digital Photo Idea Book*, *SVG for Designers*, *Microsoft Office v. X for Mac Inside Out*, *The Complete Idiot's Guide to Mac OS X*, *Photoshop 6 Cookbook*, *PhotoImpact Solutions*, and *Sams Teach Yourself QuarkXPress 4 in 14 Days*. She lives in an old house in New Hampshire with her husband, journalist Don Fluckinger, accompanied by assorted children, dogs, cats, and (she's pretty sure) a mouse under the dryer.

Guy Hart-Davis

is the author of more than 40 computing books, including *Mac OS X Leopard QuickSteps*, *How to Do Everything with Your iPod & iTunes*, and *Adobe Creative Suite Keyboard Shortcuts*. He also writes about PCs, Windows, Linux, and VBA.

down to you and me. ~ Kate*

Acknowledgments

I can't

express how much I enjoyed working with Jody Lefevere and Cricket Krengel on this book. The sometimes-tricky process of learning about a new publisher (to me) and a new series was made as simple and smooth as possible by these two. Working with my esteemed brother Paul Sihvonen-Binder as tech editor was also amazingly smooth — can you believe it? As always, I owe a great deal to my family, friends, and dogs, all of whom got the short end of the stick while I was locked in my office writing. Finally, I wouldn't have survived writing this book simultaneously with another one, were it not for my favorite Internet radio stations: WBUR Boston (wbur.org) for when I want to hear someone else talking and RadiolO 80's New Wave (radioio.com) for when I don't.

~Kate

Contents

chapter 1

How Can I Get the Most Out of the Finder? 2

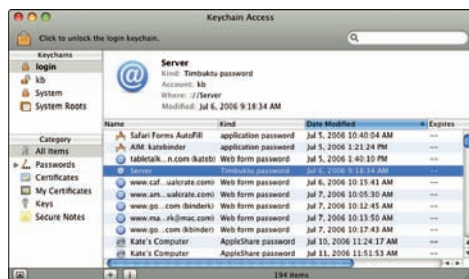

Using Different Window Modes	4
Choosing the most useful window and view mode	4
Managing windows with Exposé	6
Customizing the toolbar	8
Customizing the sidebar	10
Viewing full-screen file previews	11

Using Specialized Folders	12
Creating smart folders	12
Making burn folders	14
Attaching automated actions to folders	14
Bending the Dock to Your Will	15
Accessing hidden Dock features	15
Making the Dock better with third-party software	17
Setting Up Custom Workspaces	19
Viewing and switching spaces	20
Attaching programs to their own spaces	22
Moving windows among spaces	23
Automating Repetitive Tasks	23
Renaming files automatically	24
E-mailing a Web page	26
Making your iMac into an alarm clock	27
Recording your actions for playback	29
Finding Lost Files	30
Doing a simple Spotlight search	30
Using more complex search criteria	31
Saving a search for future use	32

chapter 2

How Can I Set Up My iMac for Multiple Users?

34

An iMac Setup Even Your Mom Can't Wreck	36
Setting up managed users	36
Using Simple Finder	38
Restricting access to programs	39
Preventing system modifications	39
Setting Up Parental Controls	40
Setting time limits for computer use	41
Restricting Web, chat, and e-mail access	42
Logging computer use	43
Maintaining Everyone's Privacy	44
Choosing secure passwords	44
Encrypting files with FileVault	48
Switching users quickly	50
Setting up sharing-only users	51
Making Files and Programs Available to All Users	52
Sharing an iPhoto library	52
Sharing an iTunes library	54

chapter 3

How Do I Hook Stuff Up to the iMac?

56

Should I Use USB or FireWire?	58
Choosing external drives	58
Choosing a scanner interface	59
Daisy-chaining do's and don'ts for FireWire	59
Syncing MP3 Players, Phones, and PDAs	60
Different iPods for different uses	60
Going beyond Palm: Third-party PDA software	62
How can I make my phone talk to my iMac?	63
Syncing contact info and calendars	64
Syncing photos and movies	66
Using an Additional Display	67
Mirroring or extended desktop?	67
Using video projectors	69
Hooking up a television	70
Limiting Cable Clutter	71
Using Bluetooth input devices	71
Setting up a wireless printer	73
Sharing keyboards, monitors, and mice among multiple computers	74

chapter 4

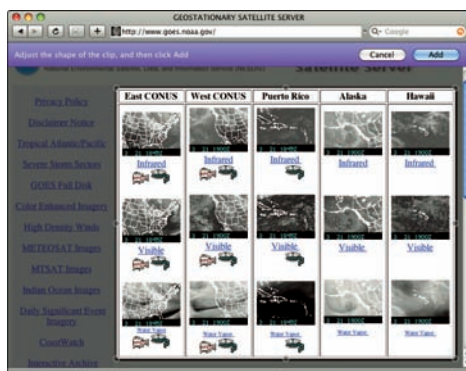

How Do I Set Up a Local Network? 76

Making the Connection	78
Going wireless	78
Using Ethernet Cables	87
Sharing Access and Data	91
Sharing files	91
Sharing Internet access	95
Sharing hardware	98
Sharing music and video	101
Creating an Ad Hoc Network	107
Using Wi-Fi	107
Using FireWire	108
Using Bluetooth	109
Using Ethernet	112
Including Windows computers	112

chapter 5

How Can I Use My iMac to Get Organized? 114

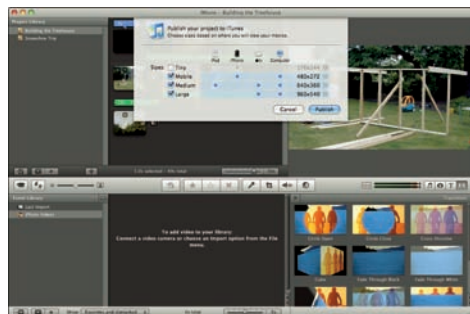

Scheduling Your Life	116
Syncing calendars among multiple macs	116
Publishing calendars with and without MobileMe	117
Accessing your calendar online	118
Using invitations in iCal	120
Adding iCal events from Mail	123
Making the Notes field work for you	123
Getting Things Done	124
Listing to-do items	124
Using your To-Do list in Dashboard	125
Implementing the GTD system	126
Tracking Contacts	128
Setting up smart groups in Address Book	128
Trading contact info with vCards	129
Accessing and sharing your Address Book online	130
Dealing with duplicate contacts	130
Printing contacts	131
Making the Most of Dashboard	132
Accessing contacts and schedules from Dashboard	133
Finding movie times and phone numbers	134

Tracking prices, flights, and packages	135
Checking the weather, the news, and more	136
Making your own Dashboard widgets	138

chapter 6

What Can I Do with My Digital Images and Music? 140

Displaying and Publishing Photos	142
Making an instant slide show	142
Using iMovie to make custom slide shows	144
E-mailing photos from iPhoto	149
Publishing photo galleries from iPhoto	150
Using color management	152
Making your own account icon	156
Displaying your own photos on your Desktop	157
Creating and sharing screen saver slide shows	157
Using photos as window backgrounds	160
Playing and Sharing Music — Legally	161
Creating self-updating playlists	161
Burning CDs with iTunes	164
Publishing iMix playlists to the iTunes Store	166
Hacking the Visualizer	167

Fixing songs that won't play	169
Dealing with "lost" CDs	172
Adding your favorite Internet radio stations	173

chapter 7

How Can My iMac Help Me Keep in Touch? 174

Getting the Most from E-mail	176
Setting up multiple e-mail accounts	176
Saving and opening attachments	178
Sorting messages automatically with rules	180
Creating Smart Mailboxes	184
Dealing with spam	185
Subscribing to RSS feeds	187
Setting up forwarding and autoresponders	189
Creating custom stationery templates	191
