About the Authors

Jennifer Smith is the founder and Vice President of American Graphics Institute (AGITraining.com). She has authored multiple books on Adobe products and is a technical writer for the Adobe Classroom in a Book series. Jennifer has worked in all aspects of graphic design and production including as an art director of an advertising agency. More than ten years ago, Jennifer took her experience and applied it to teaching. Under her leadership, AGI has grown into the largest training organization focused on print, Internet, video, and PDF publishing. Her teaching and writing style shows a clear direction that can only be achieved by someone who knows the industry and has experienced the Adobe applications in a professional workflow. She lives in the Boston area with her husband (who co-authored this book) and children.

Christopher Smith is President of American Graphics Institute and oversees curriculum content and delivery for Adobe's largest and oldest Certified Training Provider. An Adobe Certified Expert, he works as part of the Adobe Creative Team as the lead technical writer for the *Adobe Classroom in a Book* series for both Adobe Acrobat and Adobe InDesign. His more than ten other books include *Moving to InDesign*, *Teach Yourself Adobe Acrobat in 24 Hours*, and *Real World Adobe Acrobat*. Smith has served as an elected member of the School Board in his hometown in suburban Boston, Massachusetts, where he lives with his wife and children.

Dedication

To our parents, Ed and Nancy Smith; Mary Kelly and in loving memory of Jennifer's father, Joseph Kelly, the best teacher of all!

To our *perfect* children, Kelly, Alex, Grant Elizabeth, and soon to arrive baby Edward.

Authors' Acknowledgments

Thanks to all of our friends and colleagues at Adobe Systems for their support, encouragement, and faith in our work: Ali, Joe, Ron, Dave, Donna, Steve, Noha, Lynn, Adam, Christine, Jill, Jeffrey, Bagel, Carrie, and the many product team members who responded to our questions throughout the writing process.

Thanks also to the highly professional instructional staff at American Graphics Institute (AGI) who always provide great insight into the best ways to help people learn these software applications.

Thanks to all at Wiley Publishing. This book involves a lot of detail and information and it was up to acquisitions editor, Melody Lane and her "tough love" to make sure it got to the state it is now. Thanks to Colleen Totz and technical editor Cathy Auclair for the great insight.

Thanks to our family as they had to deal with parents who toiled away at the keyboard night after night.

Jennifer: thanks all the friends of my teenage daughter who gave rights for me to use their images.

Publisher's Acknowledgments
